General

1. What is the name of your team?

   LTI-USP

2. Which (agent) platform/programming language(s)/frameworks are you using and why?

   We are using the Jason framework due to the group's familiarity with the platform. In addition, we seek to evaluate a new Jason agent architecture that we developed for scenarios such as that of MAPC.

3. Any tips you want to give the other participants?

   As first-timers, we are the ones accepting the tips. :)
